"If the cat lies in the sun in February, she will creep behind the stove in March."</p> <p>~ Weather Folklore~</p>	

February:

is the second month of the year in the Julian and Gregorian calendars, with 28 days in common years and 29 days in leap years, it is the shortest month of the year, and it is also the only month with fewer than 30 days. February gets its name from the Latin word februum, which means "to purify." The Romans purified themselves in February—a ritual undertaken in preparation for the arrival of spring.
